AOP FRONTON

"O Grand R"

(red)

Nicolas Roumagnac has joined his uncle Jean-Paul Roumagnac in 2011. In the continuity of the domain evolution, the young winemaker has decided to entirely restructure the wine characteristics, the packaging, and the sales strategies.

Thanks to its exponential and quick development, the Domaine Roumagnac is now proud to be ranked among the leading properties of the appellation. It extends over 20 hectares and produces authentic wines which express the subtleties of their terroir and appellation.

In AOP Fronton, the star of the show is the Negrette. A native grape variety not grown anywhere else in the world. It covers 50% of the domain, and gives a wine abundant in aroma (red fruit, liquorice) and low in tannin.

Grape varieties: 50% Négrette, 50% Cabernet Sauvignon

Alc. by vol.: 12,5% Vol.

Harvest and vinification:

Mechanical harvest, unique for destemming the grapes directly during the harvest.

Average yield of 40hl/ha.

The grapes are then directly put into tanks. Separate vinification by varietal with a long maceration.

Aging on the lees for 15-17 months.

Tasting notes:

From selected plots; the oldest vines of the estate. Arising from a combination of the emblematic Negrette with aromas of red fruit and liquorice and Cabernet Sauvignon which provides balance and structure.

Intense nose of red berries.

The attack is supple and seductive, with a smooth body and mellow tannins.

The finish is soft, with beautiful dark fruits flavors.
